## DocSend

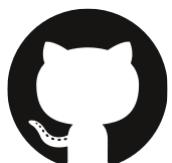

We recently secured a partnership with DocSend that allows our startups with <\$2M in funding to get 90% off their standard plan (normally \$45 pm) or advanced plan (normally \$150 pm) for one year. DocSend provides document tracking through a range of metrics like real-time engagement, page views, time spent on a page etc. All of which valuable insight for pitch decks review and generating leads. DocSend will also review your pitch decks and provide feedback. If the deck passes a quality threshold (top 20%) they are admitted into the DocSend VC fundraising network which helps pair startups with investors in their relevant domains.
